

## **aloe aristata**

---

**Aloe aristata, also known as the torch aloe or lace aloe, is a species of flowering plant in the genus Aloe that is native to South Africa. It is a stemless or very short-stemmed succulent that grows up to 60 cm (24 in) tall and wide. The leaves are lanceolate, pale green, and have white spots and spines on the margins. The flowers are yellow, tubular, and borne on spikes up to 60 cm (24 in) long.**
